

Advancing Whole Child Care: *InCK Innovations Across Three States* *[New Jersey, North Carolina, and New York]*

Monday, November 9, 2026 from 12 - 1 pm EST

Register Here!

The Integrated Care for Kids (InCK) model was launched to provide states and local partners with the opportunities and tools needed to better coordinate care and address the physical, behavioral, and social needs of children and families enrolled in Medicaid and the Children's Health Insurance Program (CHIP). The model aims to help kids stay healthy, supported, and at home.

InCK supports schools, pediatricians, behavioral health providers, and community organizations in creating a coordinated system of care for children and their families. Using a whole-child approach, the model aims to reduce unnecessary emergency department visits, hospitalizations, and out-of-home placements while delivering more efficient care. The InCK model will continue through December 31, 2026.

Join us for an engaging webinar featuring three Integrated Care for Kids (InCK) models from New Jersey, North Carolina, and New York. Participants will learn about each program's background, implementation strategies, key outcomes, lessons learned, and future directions for advancing whole-child, family-centered care.

Presented By:

**Steven Kairys,
MD, MPH, FAAP
NJ InCK
Principal Investigator**

**Eleanor Wertman,
MPH
NC InCK
Care Integration
Director**

**Christine Lebron-
Reyes, MPH
NY InCK
Project Manager**
